VitaBreath

Catch your breath with
confidence

A close-up photograph of an elderly man with thinning grey hair and glasses, smiling warmly. He is wearing a blue and white checkered button-down shirt. He is holding a small green plant in a terracotta pot. The background is a soft-focus outdoor setting with green foliage and a yellow flower.

Don't give up the things you love

Introducing the Philips VitaBreath – a life changing handheld device delivering drug-free therapy when your Chronic Obstructive Pulmonary Disease (COPD) leaves you short of breath.

We understand that shortness of breath, as a result of your COPD, can be a major concern and may mean that you avoid some daily activities to reduce the risk of experiencing these unsettling episodes. VitaBreath can help you reclaim your independence by reducing recovery time whenever you experience shortness of breath – giving you the confidence and the freedom to carry on doing the things that you love.

Discover how VitaBreath works, what to ask your physician and where you can get yours at:

www.philips.co.uk/vitabreath

*Not for sale
in the U.S.A.*

Recovery is just a breath away

Bi-level breathing support

Provides positive inspiratory pressure to reduce work of breathing. Positive expiratory pressure keeps airways open.

Drug-free recovery

Uses only air to help you recover. Can be used with other therapies that help you to manage your COPD.

Easy to clean

Removable mouthpiece and cap, which can be washed with water and a mild detergent.

Fast start up

Press the start button, wait for VitaBreath to warm up and begin breathing through the mouthpiece.

Portable and lightweight

Up to 3 days of battery life, small enough to fit in your coat pocket and ready to use at a moment's notice.

Get your VitaBreath

VitaBreath requires a prescription from your physician. If you have a prescription for VitaBreath, please call our customer services team who will be more than happy to help you with your order.
