irockcox This yogurt @ouibyoplait is not only the best tasting, but also makes the perfect mini flower vases. These are the last of my flowers for the season, so I'm glad I get to display them in my house!

thecoxcrew Wait! You have flowers at your house?

irockcox Haha yes they just all rebloomed with that last 70 degree day!

@jessacoxtweet

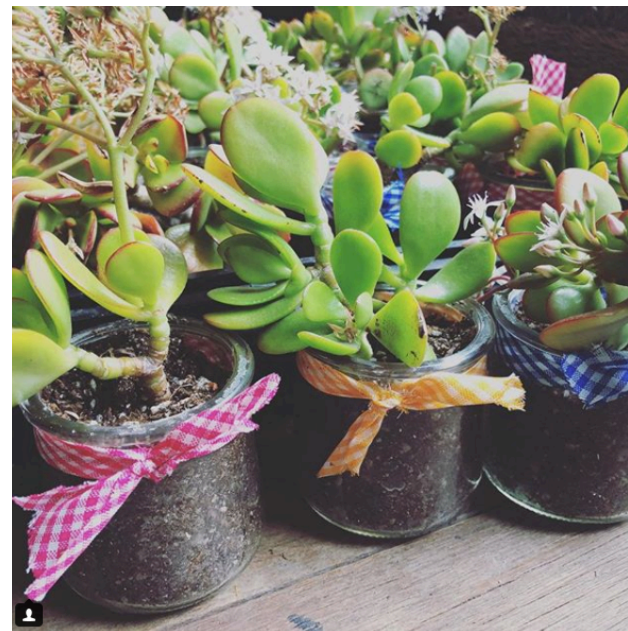

regina\_mathes I've been wanting to try it. Now I will.

ispydiy Happy Spring All!! You know what that means...time for spring cleaning!! My kitchen peninsula has become a hub in my house, a place to snack, work on DIY projects, go through my mail and make-to-do lists. So I thought I would clear out a couple of my junk drawers and create a catchall for the little go-to supplies that get lost in my black-hole drawers. Since I love up-cycling, I found this shelf at the craft store and re-used the @OuibyYoplait glass pots as containers. Check out the link in my bio for all details on this handy and fancy organization! #sponsored #OuibyYoplait #SayOui
