

Discover a world of wonder with Peekabook

What is Peekabook?

Peekabook is an educational toy for interactive storytelling and discovery

Peekabook is an educational toy that combines illustration, tech and tactility for a fun interactive storytelling and discovery for children age 3 and above. The set pairs a physical explorer ring with an iPad app filled with interactive books designed by children's storytellers and illustrators from all over the world. Like a magical looking glass, it activates the artwork and transports the child into a world of wonder and discovery.

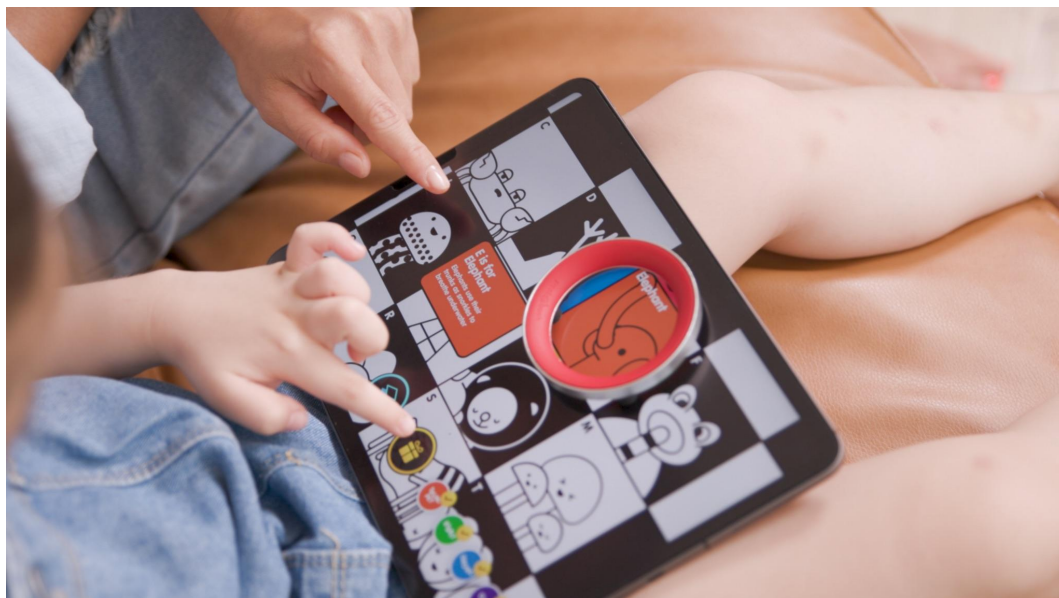

FEATURES:

- Open-ended discovery
- Animated & narrated
- Interactive questions
- Multiple play modes
- By award-winning designers
- Ever-growing library of content
- No batteries or charging required
- Available offline

How does Peekabook work?

Each interactive book is teeming with detailed artwork and mini surprises. Your child can choose a book and use the explorer ring on the screen to pan around to explore and activate hidden secrets, fun facts and even learn about science and biology.

REASONS TO LOVE PEEKABOOK

Narrated & animated for engaging learning moments

Peekabook aims to develop literacy and core concepts in kids by teaching various topics in memorable ways. Watch stories come alive through interactive animations and sounds.

Encourages creativity, discovery & imagination

Each interactive book is teeming with detailed artwork and mini surprises. With an explorer ring, your child can pan and explore around to activate hidden secrets and fun facts.

Builds creative confidence through open-ended play

Your child determines their own play with Peekabook and there is no right or wrong way. Open-ended discovery strengthens your child's creative confidence through trial and error.

Designed for travel & learning on the go

The explorer ring does not require battery or charging, and gameplay does not require internet once downloaded. This makes Peekabook the ideal learning travel companion!
